Hanks, Witkowski and Poland Said to Have Participated in Craft

Jacques M. Polish, police photographer for the 1941 Annual, explained on the question of whether the Garnet and Black staff were involved in the craft. He denied any connection between the photographers of the student publication and the craft. He stated that the photographs were taken independently of each other.

The discussions centered around the craft and whether any of the committee members were involved in it. Hanks, Witkowski, and Poland were accused of participating in the craft. The committee did not address the issue of possible violations of college policy.

The meeting concluded with a vote to refer the matter to the appropriate authority. The vote was unanimous.
