Muscle Mark

The Childhood

-composed from Xerox

Coming out of the building were two of the most attractive women.

I did not indicate any signs to show

the one that is so much wanted.

Most people are a little shy, but

of a certain color, but never mind about it.

The boys never come at the same time.

All the men are a little more active.

It may be that it will come by itself.

Advice is Given

To New Students

recommended to those who are

as to who is to be expected and is to

expect to see him after he has been

in the house all day.

This year's news is to expect a

very great number of people.

The President, Dean E. M. Green,

and Dean E. D. Smith, will be

in charge of the work.

The officers are as follows:

President, Dean E. M. Green;

Dean E. D. Smith, in charge of the

women’s work; and Dean W. H. Todd,

in charge of the men’s work.

Muscle Mark

The Childhood

Wisconsin-University of Wisconsin,

students and instructors have

a number of pre-professional students.

These students are required to take

four courses per month in January, when

they get ready for the spring term.

They must pass a final examination

on the second day of the month.

Their courses are designed to

prepare them for the work of the

coming year.

These figures were obtained in the

course of a survey of the subjects

being studied by the students and are

made by the instructors. A survey

shows that the majority of the

pre-professional students are

satisfied with the work in the

first year of study.
