The city fire department does not have authority to condemn or order city sidewalks on the campus because university officials requested the survey. Many city fire officials asserted that the buildings were found to be unsafe and fire hazards in the buildings were feared. The university's survey on the campus was released in 1949 by Co- lumbia, and copies of the report are on file in the chief, conditions under which the buildings were found unsafe, "are just too many to list," the fire chief said.

Worst condition on the campus, according to Chief McSwain, were those of the campus were found to be unsafe, the chief said. "They were in just that condition where they had an easy light burning at all times, the chief said."
