**General Assembly Budget Debate**

The appropriation request debates began by the General Assembly yesterday. Among the other sections which were discussed, the section that argued the most was that of the college requests.

The assembly is in its greatest period of growth in many years. The continuance of the success will depend on how the legislature decides to interpret the financial requests.

**Students Need to Work Together**

Why boy up the University?

The University is a community and each student is a member of the community. Therefore, each student has a responsibility to contribute to the community.

Columbus, O. (O.)—The Ohio State Activities Scholarship Development Fund committee plans to provide financial aid to more students taking courses at the Ohio State University. The scholarships are designed to attract students to their school.

The program is a long range idea. For building the future, the committee's goal is $5,000 for the year. Scholarships are available to students according to the funds that are collected.

The money collected to date is invested with the Treasurer of the State of Ohio and is growing 6% per year. Only 15% of the interest will be used for scholarships.

A board of directors will determine the disbursement of funds. The board will consist of the President of the University, the Dean of Men, Dean of Women, and eight students. Two of the students must be juniors.
