NEWS for ENGINEERING GRADUATES

1977

Continued expansion of our military and commercial business provides openings for virtually every technical talent.

As you contemplate one of the most important decisions of your life, we suggest you consider career opportunities at Pratt & Whitney Aircraft. Like most everyone else, we offer all of the usual "bargains," benefits, including our Corporation-financed Graduate Education Program. But, for more important to you and your future, is the wide-open opportunity for professional growth with a company that enjoys an enviable record of stability in the dynamic atmosphere of aerospace technology.

And make no mistake about it...you'll get a solid footing of experience from your contributions to the nation's economic growth and to its national defense as well.

Your degree can be a B.S., M.S. or Ph.D. in: MECHANICAL, AERONAUTICAL, ELECTRICAL, (Civil, Chemical or Biomedical), ELECTRICAL, METALLURGICAL, or ELECTRICAL ENGINEERING MECHANICAL HINSTEERING APPLIED MATHEMATICS, CHEMISTRY, PHYSICS, and ENGINEERING PHYSICS.

For further information concerning a career with Pratt & Whitney Aircraft, consult your college placement officer—or write Mr. William L. Stover, Engineering Department, Pratt & Whitney Aircraft, East Hartford, Connecticut 06108.

Walker's Book Has New Look

"The China Danger," written in 1936 by Prof. Richard E. Walker, head of the Department of International Studies, was recently accepted for publication by the Insti- 

tute of Inter-American Affairs.

Matthew C. Shamir, associate director of the USC Institute of International Studies, said that the Spanish edition would be in order to meet the demands of Spanish-speaking people both in the United States and abroad for translation of this popular book.

A grant from the foundations supported the Spanish edition. The present work was written during a year of research in the Far East and it was published by the American Press Assn.

"At least a major conclusion should be on the basis of the first-hand experience with modernization, statements on progress or progress only matter because of their merits, and the human contribution to their cause, said Dr. Walker. The completion of his research.

New Pamphlets Begun By Dr. G. Ross Roy

Dr. G. Ross Roy, professor in the University Department of English, has just finished the first of a series of bibliographical pamphlets for distribution to universities and colleges in the United States and foreign countries.

The first pamphlet, "Robert Browning," contains 94 bibliographical entries and includes an introduction to Browning's works. It is the expanded version of a Brown University exhibit held last year in a visiting college exhibit sponsored by the University of the United States and foreign countries.

The series, meant to stimulate interest in the faculty members, is to be continued this year with another one from the English Department.

The next one on Jan. 24, will be done by Dr. James D. Marthaler. Robert Bridges will be the author of the forthcoming one done by Dr. Cauley. The University hopes to have the complete collection of Robert Bridges' works.

Eunice Head

Eunice Head is the head of the Department of Zoology at USC. She was appointed to the position at a salary of $15,000.
